1. The product pictures are for reference only. Please refer to the actual product.  
2. OPPO AI features will vary due to device, region, time, and download capability of the user location.  
3. OPPO Reno13 Series supports IP69 water and dust resistance. It is not designed for professional diving, and its waterproof performance may decrease over time.  
We recommend using a professional waterproof case for underwater photography. The waterproofness of the device only supports fresh water. Please do not put the mobile phone in seawater without the case.  
The right for underwater shooting should not exceed 2 meters, and the shooting should be no longer than 30 minutes. Any damage caused by water requires the user to pay for it.  
The right for underwater shooting is not covered under the device's warranty. Please do not charge the phone in a damp state.

Terms and Conditions apply. \*A Fair Usage Limit is set per price plan, whereafter the speed is reduced until month end. The service remains uncapped. Please refer to our website for more details. Offers available while stock lasts. 5G FWA propositions will be available in certain areas where 5G FWA network coverage is available. A coverage check will be done on the MTN coverage map to determine if the customer's address falls within MTN's 5G FWA range. The service will not be available and supported if the customer's address falls outside the MTN 5G FWA range. Customers can only use the service at the address that they provided during order capture. The SIM can only be used with a router that has been approved by MTN. Customers can check the list of MTN-approved routers on the product page. The service will always run on 5G technology, ensuring consistent performance, with no fall-back to LTE technology.
