1. The product pictures are for reference only. Please refer to the actual product.  
2. OPPO AI features will vary due to device, region, and download availability of the user location.  
3. OPPO Reno13 Series supports IP68 water and dust resistance. It is not designed for professional diving, and its waterproof performance may diminish over time.  
We recommend using a professional waterproof case for underwater photography. The waterproofness of the device only supports fresh water. Please do not put the mobile phone in seawater without the case.  
The depth for underwater shooting should not exceed 2 meters, and the shooting duration should not be longer than 30 minutes. Any damage caused by water ingress due to non-compliance  
with the aforementioned requirements is not covered under the device's warranty. Please do not charge the phone in a damp state.

Terms and Conditions apply. \*Best network quality as determined by Umlaut Mobile Benchmark South Africa 2024. The MyMTN Home 5G promotion will be available 04/03/2025 – 06/06/2025. To qualify for the 5G promotion, the customer's permanent physical address must be within the fixed 5G coverage area, which can be checked on the MTN coverage map. The 5G bonus data (100GB or 300GB) will be loaded on the first of each month for a maximum period of 12 months, which will be depleted first and will not carry over. \*\*5G speeds are based on a best-effort service. The 5G bonus data will only work within the 5G network coverage area and will be depleted (used) on the 5G network. Access and connectivity to the network through the router are limited to the customer's physical address and geographic location ("geolocked") provided during the coverage and capacity check. \*\*\*A Fair Usage Policy (FUP) applies. Once the FUP limit has been reached, speeds will be reduced to 512Kbps. Product and Subscriber Terms and Conditions apply.
